

A close-up photograph of a wooden plank, likely made of T-111 siding, showing a dark, irregular stain or mark. The wood has a natural grain and a light brown color. The stain is dark and appears to be a liquid spill that has dried. The text is overlaid on the wood, centered horizontally and positioned in the upper half of the image. The background is a dark, out-of-focus area, possibly a shadow or a dark surface.

**Wall Kote..... after several years  
No deterioration whatsoever on T 1-11 siding.**
